@callertonkitchens featuring the Large clear bubble chandelier

Dowsing & Reynolds designs and curates beautiful décor products to help you create spaces your clients will love.

Ally Dowsing-Reynolds

James Dowsing-Reynolds

Ally and James Dowsing-Reynolds are fascinated by how our environment makes us feel and how the things we choose to surround ourselves with can influence our everyday experiences.

They co-founded D&R over ten years ago, the perfect contrast of Ally's passion for interiors and James' devotion to improving the aesthetics of everyday things.

Together, they strive to add soul to D&R products, paying attention to the details of how a statement light creates the perfect ambience or the way a light switch sounds as you click it off.

Excellent ★★★★★ on ★ Trustpilot

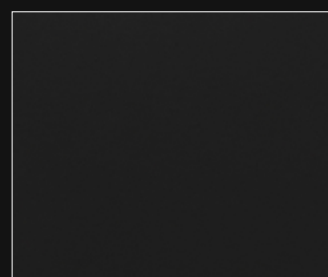

With over 10,000 Trustpilot reviews from customers, interior designers, electricians and project managers, you can ensure your clients receive expertly-designed interior finishings, along with first-class customer service.

Colours & Finishes

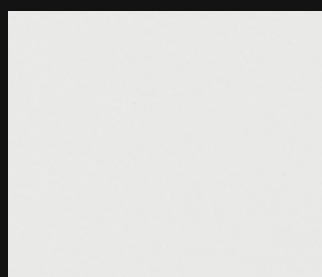

Whether you're looking for hand-finished heritage metals, timeless black and white fixtures or vibrant colours that add intrigue, you'll find coordinating hardware across our product ranges.

To make coordinating your client's hardware easy, we've created the colour key below. Look out for these to see which finishes each product range is available in.

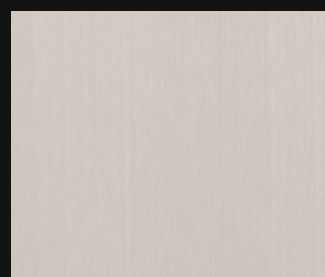

Classic Collection

L5.7cm x D3.5cm
£14.99

Terrarium double rocker switch
H8.9cm x L8.9cm
£34.99

The Colour Pop Collection

Inspired by Miami’s signature colour palette, our Colour Pop collection encapsulates the nostalgic energy found in Florida’s most famous city.

From the eclectic thrill of all-night arcades to the retro neons lining Ocean Drive, Digital Lavender, Verdigris, AI Aqua and Cobalt complement our original Miami Pink and Neo Mint colourways to bring a touch of excitement to everyday interiors.

@the.mental.temple featuring the Miami Pink Tinkisso tap and Mezzaluna pull handle

@lisaweaverhome featuring
the Gold single rocker switch

SWITCHES & SOCKETS

Switches & sockets in multiple configurations

Choose between captivating metal finishes and unique colours, with flush-fitting, screwless designs or customise your light switches to offer your clients a truly bespoke service.

Designs & Finishes

Feel the timeless quality of a dimmer dial with intricate knurled detailing, and experience flush-fitting sockets that slot into any décor scheme. Made from the highest quality materials with a ten year warranty, your clients will no longer want to hide their switches and sockets...

Flush Fitting & Screwless

Achieve a flawless finish with screwless, flush-fitting faceplates that are simple and straightforward to install.

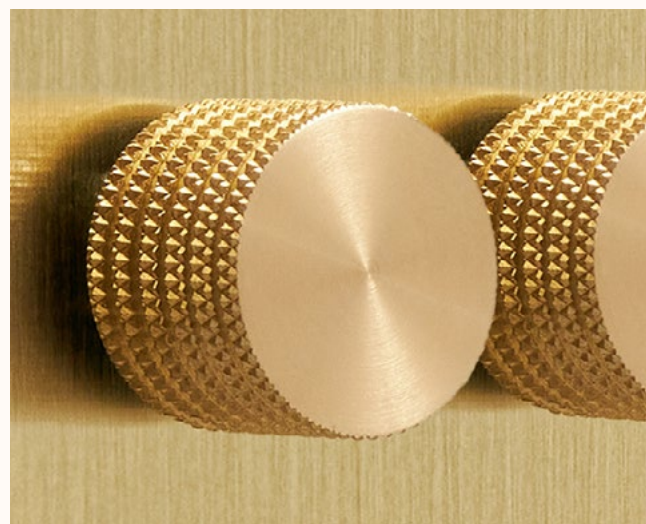

Designed to simply clip onto the back box, your clients can easily remove the faceplate when decorating or cleaning, without reaching for the tools.

Knurled Detailing

Originally designed in-house on James' 3D printer, our knurled detail has become a signature Dowsing & Reynolds feature.

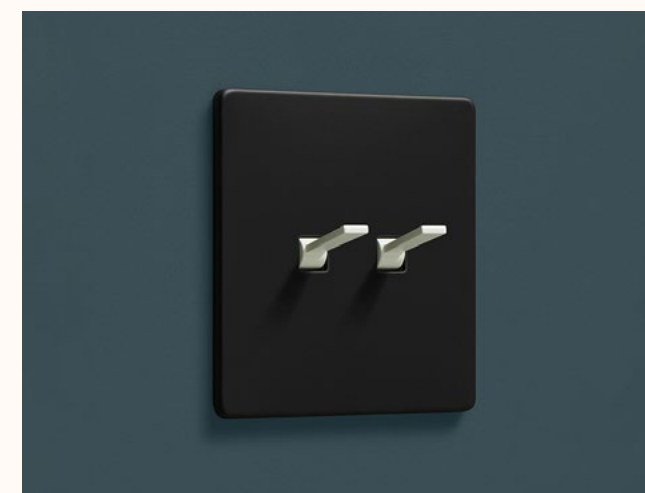

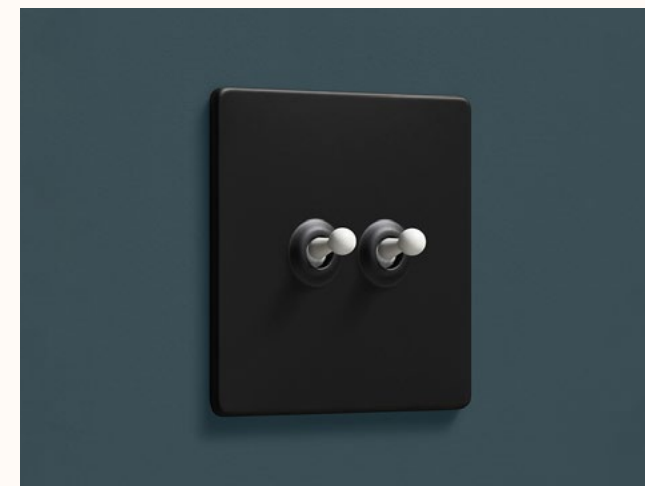

Whether it's incorporated into a dimmer dial, a handle, or a towel rail, knurling adds an element of tactility to everyday touchpoints.

Traditional & Modern Designs

Taking inspiration from the traditional dolly switch style, James decided to create another range of toggle switches that lend themselves to modern interiors.

Similar to the switches on a pilot's control panel, the new tapered toggles are a subtle nod to the aviation industry's cutting-edge technology, while the original range is a beautiful choice for heritage properties.

Smart Dimmers

COMING SOON

Curate a smart home without compromising your interior vision using our smart dimmer switches.

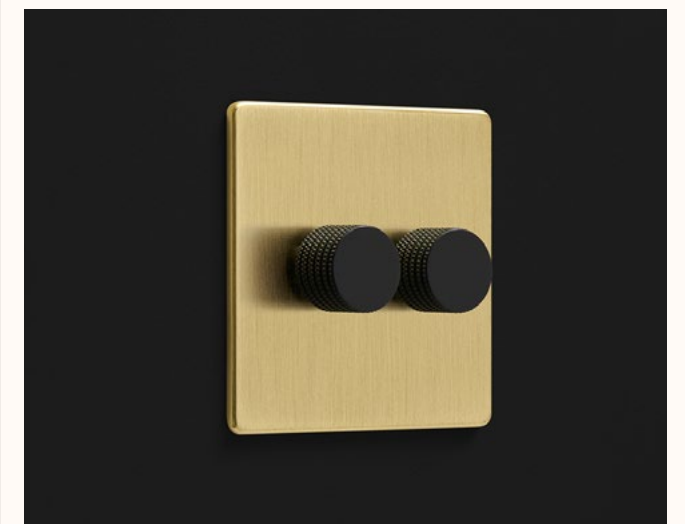

Featuring the same premium backplate and knurled dial as our original range, you'd never know about the concealed smart module hidden behind.

Compatible with:

*Some Amazon Alexa and Google Home Hub devices may need an additional hub, for example the Philips Hue Bridge. Check online for full instructions and compatibility.

Combination Switches

Combine style with function and control multiple light sources with dimmers and toggles on one neat switch plate.

Designed by our in-house team led by James Dowsing-Reynolds, the new tapered toggle style takes inspiration from the switches of pilots' control panels - a nod to modern, cutting-edge technology and precise engineering.

**Gold double combination switch
